Dear Parents,

Thank you for your patience as we navigate COVID-19 and the challenges associated with the start of school. While we may not know what the future holds, we do know that you have questions regarding the opening of school. Our goal is to start school on August 19 and provide quality instruction in a safe environment. Our top priority is the health and well-being of our students and staff. As the state continues to release information that impacts our Reopening plan, Brenham ISD will adjust the plan accordingly. At this time we plan to offer two instructional models; On campus face to face instruction and remote online learning.

Brenham ISD continues to develop a plan to prevent and mitigate the spread of COVID-19. The plan will include new procedures designed to help protect our students and our school family. Some of these procedures include daily screenings of all campus staff and visitors, limit visits in schools to only those essential to school operations, enhanced sanitization efforts, use of electrostatic disinfectant sprayers, hand sanitizers, and rooms disinfected daily. The latest Reopening Plan is posted on our website in the Covid-19 Information Center.

Our Reopening plan will be most effective if you will complete a short survey for each child attending Brenham ISD. This survey will provide information that is critical for the successful opening of school. You can access the questionnaire by clicking [here](#). If your child receives special services, please click [here](#) to see the Special Education Reopening Procedures.

In the next couple of weeks you will be receiving a commitment form where you will be asked to choose which instructional model is best for your student, on campus face to face learning or remote learning. This form will commit your student for at least one grading period.

We appreciate your patience and understanding during these unpredictable times. Please continue to check our website and follow us on our social media channels for updates.
