It is critical for all parents to attend this life-saving educational opportunity.

Both the CDC and U.S. Surgeon General have desperately labeled teen vaping an **EPIDEMIC**. If your child is approaching the 5th grade or higher, you can no longer afford to ignore this potentially devastating threat to your family's future.

Hidden behind a thin veil of harm-reduction and commercial propaganda, Teen Vaping has subtly grown to become our nation's number one drug threat for teens. Many parents express uncertainty and confusion on this critical topic. It's time we broke through that.

Your child is worth it. We're fighting for them.
